

Pipe Coating Market Growth, Applications & Regional Performance 2017 – 2024: Global Market Insights, Inc.

[Pipe Coating Market](#) has extensive involvement in transporting chemicals, oil & gas, water and various industrial processes. It protects from corrosion, abrasion, and other reactions from water, acid, CO₂, H₂S, sunshine which thereby affect product performance and longevity

Pipe Coating Market size is likely to register steady gains over the forecast timeframe. It is applied on metal surfaces to prevent corrosion. Positive outlook in oil & gas and chemical processing industries should drive product demand. They are used in gas handling equipment, fire suppressant systems, and water treatment plants.

The differentiating factor of Pipe Coating Market report by Global Market Insights, Inc. when compared with other, similar syndicated research studies includes a 360-degree synopsis of trends for a period of more than 10 years including historic information as well as future outlook. Business focussed multiple trends for Pipe Coating Market are discussed along with regional trends to offer an overall view of the market.

The ‘Industry Insights’ chapter of this research provides the most comprehensive analysis of Pipe Coating Market covering segmentation, size, forecasts, ecosystem analysis and more. Industry impact forces (regional and global) that cover growth drivers and challenges, growth potential analysis, a strategy dashboard for competitive landscape of Pipe Coating Market support this sector specific data and information points.

Global thermoplastic pipe coating market may register close to 6% by 2024. PVC, polypropylene, PE are widely used polymers owing to its lightweight and cheaper costs. They are used in sewage, irrigation, mining, construction and chemical processing industries due to their chemical resistance capacity, and can be recycled for reuse as they are environment friendly.

Fusion bonded epoxy pipe coating market may witness gains owing to its high adhesion to metals, excellent chemical resistant, thermosetting, and lightweight properties. These are mainly designed for oil & gas industry to help pipelines against corrosion.

Global pipe coating market share is consolidated. Key market players include BASF, Arkema, LyondellBasell Industries, and AkzoNobel. Other prominent companies include L.B. Foster, Ball Winch, The Bayou Companies and ShawCor.

About Global Market Insights

Global Market Insights, Inc., headquartered in Delaware, U.S., is a global market research and consulting service provider; offering syndicated and custom research reports along with growth consulting services. Our business intelligence and industry research reports offer clients with penetrative insights and actionable market data specially designed and presented to aid strategic decision making. These exhaustive reports are designed via a proprietary research methodology and are available for key industries such as chemicals, advanced materials, technology, renewable energy and biotechnology.
