Latest Update "**Train Control and Management Systems Market - Global Industry Analysis, Trend, Size, Share and Forecast 2016 - 2024**" with Industries Survey | Global Current Growth and Future.

..

### **Global Train Control and Management Systems Market: Scope of the Study**

This report on train control and management systems market highlights the current market summary scenario along with the future expected market growth during the forecast period from 2016 to 2024. Moreover, various economic, political, technological and social factors that are likely to affect the present and future demand of TCMS have also been provided in this report. In addition, information of major players operating in the market along with their market share and major strategies adopted in order to maintain leading position is also given in this report.

..

..

The report also contains the current market size in terms of revenue (USD Million) and predictive forecast from 2016 to 2024. On the basis of geography, the market has been classified into North America, Europe, Asia Pacific, Middle East and Africa and Latin America.

## **Global Train Control and Management Systems Market: Segmentation**

Based on trains type, the global train control and management systems market is majorly driven by metros and high speed trains with highest market share in 2015. There has been increasing government investments in rapid transit projects and modernization of rail infrastructure worldwide. Moreover, TCMS is an essential part of rapid transport vehicles and thus the growing demand for high speed trains and metros is likely to enhance the demand for TCMS market.

By components type, the computer control units segment held the largest share of the market in 2015 and is expected to maintain its dominance in the coming years. These units avoid the need for time consuming physical access and costly routine maintenance.

..

On the basis of train control solutions type, communication based train control segment dominated the market in 2015. With the help of these systems, the exact position of the train is known more accurately than conventional signaling systems.

## **Global Train Control and Management Systems Market: Competitive Analysis**

Some of the major players operating in the train control and management systems market include Alstom SA (France), Siemens AG (Germany), Bombardier Inc. (Canada), Hitachi Ltd. (Japan), Mitsubishi Electric Corporation (Japan), Toshiba Corporation (Japan), Strukton Rail (Netherlands), Thales Group (France), EKE Group (Finland) and General Electric (U.S.).

**The global Train Control and Management Systems market has been segmented as follows:**

### **By Trains Type**

- Metros and High Speed Trains
- Electric Multiple Units
- Diesel Multiple Units

### **By Components Type**

- Computer Control Units
- Modular Input/output Devices
- Mobile Communication Gateway
- Human Machine Interfaces

### **By Train Control Solutions Type**

- Positive Train Control
- Integrated Train Control
- Communication Based Train Control

### **By Geography Type**

- North America
- U.S.
- Canada
- Mexico
- Europe
- U.K.
- Germany
- Italy
- France

- Rest of Europe
- Asia Pacific
- China
- Japan
- India
- Rest of Asia Pacific
- Middle East and Africa (MEA)
- A.E
- South Africa
- Rest of Middle East and Africa
- Latin America
- Brazil
- Argentina
- Rest of Latin America

About Researchmoz,

ResearchMoz is the world's fastest growing collection of market research reports worldwide. Our database is composed of current market studies from over 100 featured publishers worldwide. Our market research databases integrate statistics with analysis from global, regional, country and company perspectives. ResearchMoz's service portfolio also includes value-added services such as market research customization, competitive landscaping, and in-depth surveys, delivered by a team of experienced Research Coordinators.
